SUMMARY

Cloud Architect & AWS DevOps Engineer with 2+ years building and deploying production-grade infrastructure. Experienced across CI/CD pipelines, multi-AZ architectures, serverless systems and cloud security, turning complex deployments into reliable, scalable systems. Also bring MERN stack and AI/ML experience (LLM fine-tuning, RAG pipelines), giving me a full-stack view from frontend to intelligent backend. Beyond development, I'm a top-rated freelancer on Upwork specializing in video editing for YouTube channels and social media.

EXPERIENCE

Cloud Security Specialist

Aug 2026 – Present

Youth Empowerment Training Program (YETP)

Lahore, Pakistan

- Designed a 10-module, 24-lecture Cloud Security Specialist curriculum, training youth in cloud security fundamentals.
- Delivered instruction on identity management, monitoring, and incident response to trainees with no prior cloud background.
- Created 20+ hands-on labs in a live AWS environment to reinforce cloud security concepts and reduce onboarding time.

DevOps Mentor

June 2026 – Aug 2026

Zee Outsourcing Solutions

Lahore, Pakistan

- Launched an 8-week, project-based DevOps internship program from scratch, mentoring 6 interns with no pre-built curriculum.
- Provided 1:1 mentorship to interns, guiding debugging, code reviews, and deployment decisions throughout program.
- Trained interns on AWS core services and CI/CD pipelines, resulting in 90% completing a production-grade deployment project.
- Led hands-on sessions on real deployment workflows, cutting ramp-up time to production-readiness by 100%.

Cloud Architect

May 2026 – June 2026 (Project-based)

Code Industries

Lahore, Pakistan

- Architected AWS production and staging environments (VPC, RDS Multi-AZ, ALB, Auto Scaling, WAF, CloudFront), supporting 99.9% uptime under production traffic.
- Automated deployments via CodePipeline, CodeBuild, and CodeDeploy for Lambda and application releases, cutting manual deployment steps by 80%.

AI Engineer & Cloud Architect

Sep 2025 – June 2026

AdAxiom

Lahore, Pakistan

- Built a Dynamic RAG-based Text-to-SQL pipeline for Pepsi Pakistan (Haidri Beverages) using fine-tuned Mistral 7B via Ollama and LlamaIndex, enabling natural language queries over 1M+ rows of channelwise/packwise sales data.
- Developed a medical billing AI agent (FastAPI on AWS EC2, React on GitHub Pages), integrating 6 CMS data sources with PostgreSQL 17 across 1.97M+ rows.
- Engineered an agentic RCM automation pipeline with an auto-fix agent, reducing manual claim-review time by 40% and eliminating reliance on external web search for HIPAA-aligned validation.
- Automated Medent GUI workflows (Flask/PyAutoGUI, AWS EC2 Windows, Task Scheduler) for PT Balance and CPT Codes reporting, saving the team 5+ hours per week.
- Shipped an 8-step medical billing React form with xlsx parsing, MD5 caching, and DeepSeek API integration, cutting manual data entry time by 50%.
- Architected AWS infrastructure (EC2, RDS, S3, Lambda, EventBridge, CloudFront, IAM) with least-privilege security hardening across environments.

Cloud Architect | DevOps Engineer | MERN & AI Developer | Video Editor

2022 – Present

Upwork

Remote (Freelance)

- Maintained Top Rated status with a 100% Job Success Score across contracts.

PROJECTS

Devnesty CRM | *PHP, SQL, HTML, CSS, JavaScript*

- Role-based CRM for Devnesty covering attendance, payroll, leave, and task delegation across Admin/Manager/HR/Team Lead/Agent roles.

Travel Booking Platform | *MERN Stack*

- Dynamic travel site with custom admin panel, automated lead distribution, and interactive package browsing.

Devnesty Website | *MERN Stack*

- Full company website built end-to-end — design, content, and conversion-focused UX.

Omendon — B2B Sales Network | *MERN Stack*

- B2B platform connecting Finnish companies with UAE decision-makers via a rep dashboard for intros and payouts.

TECHNICAL SKILLS

Cloud: AWS, GCP, Azure

Frontend: React.js, Next.js, React Native

Backend: Node.js, Express.js, Python

Database: MongoDB, MySQL

DevOps: CI/CD, CodePipeline, CodeDeploy, Git, Bitbucket

AI/ML: RAG, LLM Integration

IDEs: Codex, Cursor, Antigravity

EDUCATION

University of Central Punjab (UCP)

B.Sc. Computer Science, GPA: 3.4/4.0

Lahore, Pakistan

Oct 2023 – March 2027

CERTIFICATIONS

Azure Solutions Architect Career Path — Microsoft Learn Official Collection (Badge)

AWS Academy Graduate — Cloud Foundations

Professional Network Engineer Certification and Associate Cloud Engineer Certification — Google Skills
